

April Updates

As mentioned in our last update we are slimming down the inventory that we keep on hand in the office. This includes items like mastitis treatments, antibiotics and vaccines. As such we ask that you please phone ahead so that we have the opportunity to order in the products for you.

ProAction Update

All of our dairy producers are intimately familiar with the CQM and ProAction programs. Many will have heard that the next part of ProAction will be rolling out this September 2019. This program is the Biosecurity component of ProAction. In order to help our dairy clients navigate this new program Dr. Christie Ryan has been trained as an advisor. COVS will be hosting several regional classroom sessions where Dr. Ryan will go over the Biosecurity program as well as touch on points from previous programs that have come up as priority areas to discuss again. Additionally, there is an option for producers to have private on-farm sessions with Dr. Ryan for a more personalized overview and advice on the program. More information will follow as the classroom sessions are planned. If you have any questions or concerns about the program, please do not hesitate to contact the office.

Veterinary Spinal Manipulation Therapy (VSMT) Promotion

Spring is here! Now that the nice weather is just around the corner, we know there will be a lot of clients that are thinking about riding and showing this summer. We wanted to give your horse the opportunity to feel at the top of their game as their workload increases. As such we are excited to offer a special discount on all VSMT appointments booked in the months of April & May. Book now and get 10% off call fees, exams and adjustments.

COVS Welcomes a New Employee

You will be seeing a new face around the office at COVS! We are very happy to welcome Megan onto our team, who will be helping in the office to allow our technicians to be on the road more during our upcoming busy season.
