

July Updates

Congratulations

We want to offer our congratulations to Dr. Christie Ryan and her husband Karl who welcomed the arrival of their baby girl, Avery earlier this month. Everyone is at home and doing well! We wish Dr. Ryan all the best over the next year and look forward to her return

Please Welcome

To ensure you receive the same level of service you have come to expect from us, we are pleased to welcome Dr. Tom Gutteridge who will be with us for the duration of Dr. Ryan's maternity leave. Tom may be a familiar face for some of you as he has presented at several of our client education events, including our bovine clinical skills day and our Spring equine evening on parasites. In addition to being a technical services veterinarian at Zoetis, Tom has completed an internship at Milton Equine Hospital, and worked as an emergency veterinarian at Heartland Veterinary Animal Hospital. He will be helping us out by being part of the rotation for our weekend on call schedule.

COVS would also like to take this opportunity to welcome Lauren Gatrell to our team. Lauren has been volunteering with us for several years, and we are very happy to bring her on board as an official team member. Lauren has worked at an equine practice in Erin Ontario and has gained invaluable experience volunteering with us through the years. Lauren will be working in the office and occasionally helping our veterinarians on the road.

Reminders

We wanted to remind everyone that we are continuing to run our Spring fecal egg count promotion until August 31, 2019. We use fecal egg counts to monitor parasite burdens and to determine which dewormer is most appropriate to treat with. We believe that fecal egg counts are an important part of a parasite control program and as such are continuing this offer through the summer. There are both individual and barn discount options, so please call us with any questions you may have.

"Your Trusted Animal Health Team"
